

PROFILE

Passionate Full Stack Developer, specialized in React.js, Laravel, Node.js and .NET. Experienced in building secure web applications with JWT authentication, REST APIs, and relational databases. Comfortable working in Agile methodology and motivated to join an innovative team.

EXPERIENCE

Full Stack Web Developer

April 2025 — June 2025

Maghreb Arab Press (MAP)

Full-stack development of ExpireTrack, a subscription management web application for MAP. Designed the front end (React, Tailwind CSS) and back end (Node.js, Express.js) with UML modeling and a MySQL database via Prisma. Implemented security through JWT authentication and role management, strengthening my skills across the full development lifecycle.

Full Stack Web Developer

April 2024 — May 2024

Maghreb Arab Press (MAP)

During a one-month internship at Maghreb Arab Press (MAP), I took part in developing a newspaper e-commerce platform. I designed a secure backend, integrated APIs for stock and order management, and developed advanced JavaScript features, which allowed me to strengthen my full-stack web development skills.

EDUCATION

SUPMTI School, Rabat

2025 — 2027

Engineering Degree in Computer Science, Information Systems Engineering track

SUPMTI School, Rabat

2024 — 2025

Bachelor's Degree in Information Systems Engineering

Institut de Technologie Appliquée Spécialisation, Rabat

2022 — 2024

Full Stack Developer – Specialized Technician

Achbal Al Karaouine School, Salé

2022

Baccalaureate in Physical Sciences

LANGUAGES

– English
– French
– Arabic

PROJECTS

FitnessTracker — Fitness & Nutrition Tracking Application

A complete fitness and nutrition tracking web app, built as a team: secure authentication, real-time stats dashboard, workout tracking, food journal with macronutrients, and goal tracking with progress bars. Built with .NET, MVC architecture, and collaborative UI/UX-to-backend design.

.NET FRAMEWORK · ASP.NET MVC · ENTITY FRAMEWORK · SQLITE

MotoTrack — Motorcycle Maintenance Management Platform

Industrial project (2nd-year Engineering Cycle, ISI track). A web platform centralizing motorcycle maintenance, connecting riders with partner garages: dashboard, bike management, automatic reminders, cost tracking, diagnostic assistant, interactive garage map, and appointment management. Garage side: profile and appointment request management. Under active development.

LARAVEL · REACT.JS · MYSQL

ExpireTrack — Subscription Management Application

Full Stack subscription management web application, featuring a user role system, secure JWT authentication, and a RESTful API.

REACT.JS · TAILWIND CSS · NODE.JS · EXPRESS.JS · MYSQL · PRISMA · JWT

AutoLoc — Car Rental Platform

Car rental web application with availability and date-based reservation management.

LARAVEL · REACT.JS · MYSQL

SKILLS

LANGUAGES: JavaScript, Python, HTML, CSS, SQL, C, Java, XML

FRAMEWORKS: React.js, Express.js, Laravel, Bootstrap, Tailwind CSS, J2EE, .NET Framework, ASP.NET MVC, Entity Framework

DATABASES: MySQL, MongoDB, SQL Server, SQLite

TOOLS: Git, GitHub, Linux, WordPress, UML

METHODOLOGIES: Agile (Scrum, Kanban)

NETWORKING: TCP/IP fundamentals, basic networking

CERTIFICATES

Agile Project Management – HP LIFE

Data Science & Analytics – HP LIFE

Effective Leadership – HP LIFE

Front-End Development Libraries – FreeCodeCamp

Test Automation with Selenium – Orange Digital Centre
